

Property Exclusion Request Form:

Request Form to not carry the Conference Property Insurance

By submitting this form you are requesting that your church not be required to buy the Conference Property Insurance. This is a request to exclude your church from Building and Contents coverage only. The church will still need to purchase their Liability and Workers Compensation insurance with the conference insurance plan (*currently Sovereign Insurance*).

By submitting this form, you acknowledge that your church will not be insured for any building or contents coverage under the conference's insurance policy for the current policy term.

This form will be reviewed by the Trustees and your District Superintendent. After review, the church will receive notification that their request was approved or denied. This form must be submitted each year, for review and approval to exclude building and contents insurance coverage for their church.
